

JOURNAL OF BIOLOGICAL REGULATORS & HOMEOSTATIC AGENTS

Volume 32, No. 2, March - April, 2018

CONTENTS

<i>Editorial</i>	
F. Mastrangelo, I. Frydas, G. Ronconi, S.K. Kritas, L. Tettamanti, AL. Caraffa, C. D'Ovidio, A. Younes, C.E. Gallenga and P. Conti. Low-grade chronic inflammation mediated by mast cells in fibromyalgia	195
<i>Original articles</i>	
G.X. Zhang, Y.J. Du, X.H. Li, Z.T. Feng, H. Zhao, Y. Sun, J.J. Jin and X.J. Li. Protective effect of erythropoietin against lipopolysaccharide-induced inflammation and mitochondrial damage in liver	199
JY. Chen, LL. He, HX. Zhang, MM. Sun and KS. Chen. Effects of tumor-associated macrophages on the proliferation and migration of esophageal cancer-associated lymphatic endothelial cells	207
Z. Chang, H. Zhang, H. Dong, K. Mehmood, M. Ijaz, H.I. Ahmad, M.A. Naeem, Q. Wu, F. Nabi and H. Zhu. Effect of CuSO ₄ and nano copper on serum antioxidant capacity in weaned piglets	219
D. Guan, Y. Li, X. Peng, H. Zhao, Y. Mao and Y. Cui. Thymoquinone protects against cerebral small vessel disease: role of antioxidant and anti-inflammatory activities	225
V. Karpov, R. Ilaraza, A. Catali and M. Kulka. Cysteinyl leukotrienes C ₄ and D ₄ downregulate human mast cell expression of toll-like receptors 1 through 7	233
L.M. Zhang, HY. Li, B. Liu, MY. Li, XL. Yao and YH. Chang. Study on physiological and psychological comprehensive nursing of elderly tumor patients after surgery	241
B-Y. Yang, Q. Meng, Y. Sun, L. Gao and J-X. Yang. Long non-coding RNA SNHG16 contributes to glioma malignancy by competitively binding miR-20a-5p with E2F1	251
<i>Letters to the Editor</i>	
MX. Xu, HJ. Cui, TL. Yao and YF. Gui. Clinical value of combined tests for tumor markers for gastric cancer	263
M. Nazar, M.S. Khan, M. Ijaz, A.A. Anjum, S. Sana, E.M.N. Setyawan, M.I. Saleem and I. Ahmad. Prevalence of Degnala disease in bovine along with screening of toxigenic fungi isolated from contaminated rice straw	269
S. Ali, C. Sola, M. Harrison, M. Tahir, A. Sheed Khan, M. Mumtaz, E. Chimara and F. Hassan. Spoligotyping analysis of <i>Mycobacterium tuberculosis</i> with TB-SPRINT technology	275
HX. Hu, DH. Xu, WN. Ju, C. Ma, X. Wang and XL. Liu. Neuroprotection of ulinastatin on transient cerebral ischemia via antioxidative mechanisms	283
I. Šoša, A. Ferencic, V. Stemberga, G. Zamolo, S. Arbanas, I. Dasek, M. Perkovic and D. Cuculic. Medicamentous thrombolysis disguises pulmonary thromboembolism as a cause of death	289
G-X. Shen, K-J. Wu, Z. Chen, Y-F. Gao and G-X. Nan. Sudden-onset unilateral ptosis induced by pituitary macroadenoma, with false-positive Jolly and neostigmine tests	295
H. Sun, J. Zhang, Y. Zheng and S. Shang. Expressions and clinical significance of factors related to acute coronary syndrome	299
WY. Li, XS. Yang and YC. Wang. Glucocorticoids in combination with ursodesoxycholic acid in the treatment of autoimmune hepatitis	307
T. Kuret, K. Lakota, A. Hočevár, B. Burja, S. Čučnik and S. Sodin-Semrl. Evaluating the utility of autoantibodies for disease activity and relapse in giant cell arteritis	313
K. Majewski, J. Agier, E. Kozłowska and E. Brzezińska-Błaszczyk. Status of cathelicidin LL-37, cytokine TNF, and vitamin D in patients with pulmonary tuberculosis	321
J. Xu, H. Zhang, Y. Gu, K. Mehmood, Q. Zhang, M. Ijaz, R.Z. Abbas, W. Babar and S. Li. Correlation analysis of <i>CD4</i> gene polymorphism and blood routine indexes in pigs (<i>Sus scrofa</i>)	327
D. Poddighe, C.B. Mathias, I. Brambilla, G.L. Marseglia and H.C. Oettgen. Importance of basophils in eosinophilic asthma: the murine counterpart	335
Y. Liu, H. Yan, F. Shao, QH. Li and M. Cui. Correlation between childhood eczema and specific IgG antibody level	341
YL. Tian, J. Geng, F. Wang and YP. Zheng. Posterior hemivertebra resection in combination with screw rod internal fixation in the treatment of pediatric congenital scoliosis	345
KB. Chen, Q. Gu, T. Xia, X. Lu and ZD. Zhang. Three-vessel-trachea view in the diagnosis of fetal cardiac great vessel malformation	351
LY. Wen, YS. Zhang, X. Zhou, G. Li, CY. Hu, Y. Li and LJ. Jin. Effect of branched chain amino acids on perioperative temperature, glucose level and fat metabolism in patients with gastrointestinal tumors	357
A. Shams, J. Hung and A. Bahl. Ability of computed tomography to predict right heart strain on an echocardiogram in patients with acute pulmonary embolus	365
XJ. Xu, Z. Tang, LR. Zeng, H. Luo, QY. Chen, L. Li, Q. Lou and XJ. He. Detection of hand-foot-mouth disease and its spatial-temporal epidemiological characteristics with GIS platform	371
M. Afzal, M. Shahid, M. Riaz, M.A. Saleem, J.I. Wattoo, B. Zeshan and M. Naveed. Role of fungal-induced stress in biochemical and phytochemical profiling of <i>Peganum harmala</i>	379
A. Notarnicola, G. Maccagnano, M.F. Gallone, L. Mastromauro, F. Rifino, V. Pesce, I. Covelli and B. Moretti. Extracorporeal shockwave therapy <i>versus</i> exercise program in patients with low back pain: short-term results of a randomised controlled trial	385
L. Giannetti, A.M. Dello Diago and E. Spinis. Oral lichen planus	391
A. Libonati, V. Di Taranto, C. D'Agostini, M.M. Santoro, D. Di Carlo, D. Ombres, G. Gallusi, C. Favalli, G. Marzo and V. Campanella. Comparison of coronal leakage of different root canal filling techniques: an <i>ex vivo</i> study	397
A. Foletti, C.G. Egan and P. Baron. Effect of biophysical therapy on articular pain in a primary care setting compared to ibuprofen and placebo: a randomized controlled trial	407
E. Sinagra, A. Orlando, F. Mocciano, V. Criscuolo, L. Oliva, S. Maisano, M. Giunta, F. La Seta, G. Solina, A.G. Rizzo, A. Leone, G. Tomasello, F. Cappello and M. Cottone. Clinical course of severe colitis: a comparison between Crohn's disease and ulcerative colitis	415
F. Mastrangelo, A. Dedola, F. Cattoni, F. Ferrini, F. Bova, M. Tatullo, E. Gherlone and L. Lo Muzio. Etiological periodontal treatment with and without low level laser therapy on IL-1 β level in gingival crevicular fluid: an <i>in vivo</i> multicentric pilot study	425
A. Ballini, S. Cantore, A. Dedola, L. Santacroce, L. Laino, M. Cicciù and F. Mastrangelo. IL-1 haplotype analysis in periodontal disease	433
