

Journal of Biological Regulators & Homeostatic Agents

Volume 24, No. 2, April - June, 2010

CONTENTS

Editorials

- P. Randelli, F. Randelli, P. Cabitza and L. Vaienti.** The effects of COX-2 anti-inflammatory drugs on soft tissue healing: a review of the literature..... 107
- L. Raffaelli, L. Scaramuzzo, P. Rossi Iommetti, C. Graci, G. Maccauro and P.F. Manicone.** Jaw osteonecrosis related to bisphosphonate for bone metastasis..... 115
- M. Malerba, A. Radaeli, S. Mancuso and R. Polosa.** The potential therapeutic role of potassium channel modulators in asthma and chronic obstructive pulmonary disease..... 123
- M.L. Castellani, A. Anogeianaki, P. Felaco, E. Toniato, M.A. De Lutiis, B. Shaik, M. Fulcheri, J. Vecchiet, S. Tetè, V. Salini, T.C. Theoharides, A. Caraffa, P. Antinolfi, I. Frydas, P. Conti, C. Cuccurullo, C. Ciampoli, G. Cerulli and D. Kempuraj.** IL-35, an anti-inflammatory cytokine which expands CD4+CD25+ Treg cells..... 131

Original Articles

- Q.L. Zhang, Q. Niu, P.Y. Niu, X.L. Ji, C. Zhang and L. Wang.** Novel interventions targeting on apoptosis and necrosis induced by aluminum chloride in neuroblastoma cells..... 137
- J. Szkodzinski, B. Hudzik, W. Romanowski, K. Wilczek, A. Danikiewicz, M. Gasior, L. Polonski and B. Zubelewicz-Szkodzinska.** Serum concentration of insulin-like growth factor-I, but not tumor necrosis factor-alpha, measured twelve months after stenting of the infarct-related artery, is associated with in-stent restenosis..... 149
- Q. Li, M. Kobayashi, H. Inagaki, Y. Hirata, Y.J. Li, K. Hirata, T. Shimizu, H. Suzuki, M. Katsumata, Y. Wakayama, T. Kawada, T. Ohira, N. Matsui and T. Kagawa.** A day trip to a forest park increases human natural killer activity and the expression of anti-cancer proteins in male subjects..... 157
- G. Mori, M. Centonze, G. Brunetti, A. Ballini, A. Oranger, C. Mori, L. Lo Muzio, S. Tetè, F. Ciccolella, S. Colucci, M. Grano and F.R. Grassi.** Osteogenic properties of human dental pulp stem cells..... 167
- G. Ciprandi and I. Cirillo.** Rupatadine improves nasal symptoms, airflow and inflammation in patients with persistent allergic rhinitis: a pilot study..... 177
- E. Marchese, A. Vignati, A. Albanese, C.G. Nucci, G. Sabatino, B. Tirpakova, G. Lofrese, G. Zelano and G. Maira.** Comparative evaluation of genome-wide gene expression profiles in ruptured and unruptured human intracranial aneurysms... 185
- A. Angelini, C. Di Ilio, M.L. Castellani, P. Conti and F. Cuccurullo.** Modulation of multidrug resistant P-glycoprotein activity by flavonoids and honokiol in human doxorubicin-resistant sarcoma cells (MES-SA/Dx-5): implications for natural sedatives as chemosensitizing agents in cancer therapy..... 197
- P. Boscolo, V. Bellante, K. Leopold, M. Maier, L. Di Giampaolo, A. Antonucci, I. Iavicoli, L. Tobia, A. Paoletti, M. Montalti, C. Petrarca, N. Qiao, E. Sabbioni and M. Di Gioacchino.** Effects of palladium nanoparticles on the cytokine release from peripheral blood mononuclear cells of non-atopic women..... 207
- M. Garzaro, G. Pecorari, J. Nadalin, L. Raimondo, A. Palmo, M. Baccega and C. Giordano.** Objective and subjective assessment of digestion after ingestion of an iced dessert in healthy volunteers..... 215

Letters to the Editor

- G. Ciprandi, M. De Amici, S. Caimmi, A. Marseglia, A. Marchi, A.M. Castellazzi and G. Marseglia.** Soluble serum HLA-G in children with allergic rhinitis and asthma..... 221
- C. Ripa, G. De Tommaso, R. Lisa, M. Lorenzi, M.C. Melatini, I. Mazzanti, A. Abbatecola and R. Antonicelli.** Pulmonary embolism with minimal D-dimer increase - disagreement between clinic and laboratory: case report..... 225

ERRATA CORRIGE

Volume 24 No. 1.

Page 87

Plasma adiponectin and leptin concentrations in professional rugby players

P. Magni, M. Ruscica, E. Dozio, L. Passafaro, L. Stefani, P. Morelli,
G. Banfi, M.M. Corsi.

L. Stefani should read L. Steffani

Page 73

Adenosine A2a receptor agonists reduce the apoptosis in an
experimental model of spinal cord trauma.

Genovese T, Melani A, Esposito E, Paterniti I, Mazzon E, Di Paola R,
Bramanti P, Linden J, Pedata F, Cuzzocrea.
