

Journal of Biological Regulators & Homeostatic Agents

Volume 23, No. 1, January - March, 2009

CONTENTS

Editorials

G. Luzi, F. Bongiorno, S. Paparo Barbaro and G. Bruno. Intravenous IgG: biological modulating molecules..... 1

M.L. Castellani, D.J. Kempuraj, V. Salini, J. Vecchiet, S. Tetè, C. Ciampoli, F. Conti, G. Cerulli, A. Caraffa, P. Antinolfi, T.C. Theoharides, D. De Amicis, A. Perrella, C. Cuccurullo, P. Boscolo and Y. Shaik. The latest interleukin: IL-33 the novel IL-1-family member is a potent mast cell activator..... 11

Original articles

A. Muñoz-Hoyos, A. Molina-Carballo, J. Uberos, F. Contreras-Chova, M. Del Carmen Augustin-Morales, M. Ruiz-Alba and G. Galdó-Muñoz. Serum melatonin concentration in the child with non-organic failure to thrive: comparison with other types of stress..... 15

E. Rosato, C. Letizia, M. Proietti, A. Aversa, G. Menghi, C. Rossi, E. Torella, D. Cotesta, L. Petramala, R. Bruzziches, G. Spera, S. Pisarri and F. Salsano. Plasma adrenomedullin and endothelin-1 levels are reduced and Raynaud's phenomenon improved by daily tadalafil administration in male patients with systemic sclerosis..... 23

G. Ciprandi, I. Cirillo¹, A. Pistorio², M. Di Gioacchino³ and D. Fenoglio Ebastine increases ifn- γ production in patients with persistent allergic rhinitis..... 31

M. De Amici, G. Marseglia, S. Quaglini, R. Moratti, R. Alesina, C. Torre and G. Ciprandi. Reference values for IgG and IgG₄ serum levels specific for inhalant allergens in non-atopic subjects..... 37

S. Zara, D. Bosco, C. Di Giulio, A. Antonucci and A. Cataldi. Protein kinase C α early activates splicing factor SC-35 during post-natal rat heart development..... 45

Letter to the Editor

C. Di Giulio, G. Petruccelli, G. Bianchi, M. Cacchio and V. Verratti. Does hypoxia cause sarcopenia? Prevention of hypoxia could reduce sarcopenia..... 55
