

Journal of Biological Regulators & Homeostatic Agents

Volume 25, No. 2, April - June, 2011

CONTENTS

Editorials

- G. Esposito, F. Rossi, P. Matteini, A. Puca, A. Albanese, G. Sabatino, G. Maira and R. Pini.** Present status and new perspectives in laser welding of vascular tissues..... 145
- F. Pandolfi, R. Cianci, F. Casciano, D. Pagliari, T. De Pasquale, R. Landolfi, G. Di Sante, J.T. Kurnick and F. Ria.** Skewed T-cell receptor repertoire: more than a marker of malignancy, a tool to dissect the immunopathology of inflammatory diseases..... 153
- C.M. Conti, M. Fulcheri, A. Anogeianaki, G. Maccauro, S. Teté, V. Salini, D. Tripodi, E. Toniato, A. Caraffa, P. Antinolfi, R. Galzio, G. Neri, F. Pandolfi and R. Doyle.** Psychological stress and vitamins..... 163

Original Articles

- I. Tarakanov, L. Tikhomirova, N. Tarasova, V. Safonov, M. Bialkowska and M. Pokorski.** GABA representation in hypoxia sensing: a ventilatory study in the rat..... 169
- Y. Shimizu, K. Dobashi, N. Fueki, M. Fueki, T. Okada, S. Tomioka, S. Makino and M. Mori.** Changes of immunomodulatory cytokines associated with omalizumab therapy for severe persistent asthma..... 177
- S. Sedriep, X. Xia, F. Marotta, L. Zhou, H. Yadav, H. Yang, V. Soresi, R. Catanzaro, K. Zhong, A. Polimeni and D.H. Chui.** Beneficial nutraceutical modulation of cerebral erythropoietin expression and oxidative stress: an experimental study..... 187
- K. Naruishi, K. Omori, H. Maeda, N. Sonoi, K. Funakoshi, K. Hirai, M. Ishii, K. Kubo, H. Kobayashi, T. Tomiyama, D. Yamamoto, I. Tanimoto, K. Kunimatsu and S. Takashiba.** Immune responses to *Porphyromonas gingivalis* infection suppress systemic inflammatory response in experimental murine model..... 195
- A. Angelini, L. Centurione, S.A. Sancilio, M.L. Castellani, P. Conti, C. Di Ilio, E. Porreca, F. Cuccurullo and R. Di Pietro.** The effect of the plasticizer diethylhexyl phthalate on transport activity and expression of P-glycoprotein in parental and doxo-resistant human sarcoma cell lines..... 203
- V. Bordignon, S. Bultrini, G. Prignano, I. Sperduti, G. Piperno, C. Bonifati, M. Filippetti, L. Toma, A. Latini, M. Di Cecio, A. Giuliani, A. Vocaturo, E. Trento, G. D'Agosto, F. Francesconi, A. Cataldo, A. Vento, V. Cilenti, E. Berardesca, F. Ameglio, P. Cordiali Fei and F. Ensoli.** High prevalence of latent tuberculosis infection in autoimmune disorders such as psoriasis and in chronic respiratory diseases, including lung cancer..... 213
- F. Marotta, Y. Naito, F. Padriani, X. Xuwei, S. Jain, V. Soresi, L. Zhou, R. Catanzaro, K. Zhong, A. Polimeni and D.H. Chui.** Redox balance signalling in occupational stress: modification by nutraceutical intervention..... 221
- G. Mazzocoli, F. Giuliani and R.B. Sothorn.** A method to evaluate dynamics and periodicity of hormone secretion..... 231
- P. Zanna, I. Maida, M.C. Turpin Sevilla, F.C. Susca, R. Filotico, M. Arciuli, N. Cassano, G.A. Vena, R. Cicero and G. Guida.** Molecular characterization of novel melanoma cell lines..... 239
- G. Mazzocoli, S. Carughi, M. Sperandeo, V. Paziienza, F. Giuliani and R. Tarquini.** Neuro-endocrine correlations of hypothalamic-pituitary-thyroid axis in healthy humans..... 249
- F. Guarino, G. Cantarella, M.A. Caruso, C. Russo, S. Mancuso, G. Arcidiacono, R.R. Cacciola, R. Bernardini and R. Polosa.** Endothelial activation and injury by cigarette smoke exposure..... 259
- F. Foltran, P. Berchiolla, S. Bernasconi, E. Grossi, D. Gregori and M.E. Street.** A systems biology approach: new insights into fetal growth restriction using Bayesian Networks..... 269

Letters to the Editor

- U. Mazurek, A. Owczarek, E. Nowakowska-Zajdel, J. Wierzoń, E. Grochowska-Niedworok, T. Kokot and M. Muc-Wierzoń.** Statistical analysis of differential gene expression in colorectal cancer using CLEAR-test..... 279
- N. Cassano, V. Mastrandrea, M. Principi, F. Loconsole, N. De Tullio, A. Di Leo and G.A. Vena.** Anti-tumor necrosis factor treatment in occult hepatitis B virus infection: a retrospective analysis of 62 patients with psoriatic disease..... 285
- M.G. Giganti, D. Minella, B. Testa, R. Zenobi, M. Biancolella, A.M. Isidori, M. Caprio, G. Novelli and A. Fabbri.** A pilot study on the transcriptional response of androgen- and insulin-related genes in peripheral blood mononuclear cells induced by testosterone administration in hypogonadal men..... 291
- G. Ciprandi, M. De Amici and G.L. Marseglia.** Serum IL-9 levels and sublingual immunotherapy: preliminary report..... 295
- M. Cassano, P. Cassano and G. Ciprandi.** May nasal hyperreactivity be a sequela of recurrent common cold..... 299
